

On behalf of the Persatuan Alumni St Anthony's Teluk Intan – Kuala Lumpur, we are happy to bring the Online STEM Education Career platform to our three schools i.e. SM St Anthony Teluk Intan, SK St Anthony Teluk Intan and SK St Anthony Langkap. It is indeed our desire to see our students from our schools to transform with innovation and sustainable solutions through STEM EDUCATION.

In this ever-changing global environment, increasingly complex world, it's more important than ever that our nation's youth are prepared to bring knowledge and skills to solve problems, make sense of information, and know how to gather and evaluate evidence to make decisions.

We want our students to develop people skills and prepare them for the future labour market with whole range of experiences and skills. Each STEM component brings a valuable contribution to a well-rounded education.

- Science gives our students an in-depth understanding of the world around them. It helps them to become better at research and critical thinking.
- Technology prepares our students to work in an environment full of high-tech innovations.
- Engineering allows students to enhance problem-solving skills and apply knowledge in new projects.
- Mathematics enables students to analyse information, eliminate errors, and make conscious decisions when designing solutions.

In nutshell, STEM Education links all the above disciplines into a cohesive learning system based on real-world applications. The Alumni hopes through this initiative of ours, the students will aspire to achieve; and what they most aspire to do is tackle real-world problems in the near future. Yes! we want our students to get involved in discussions and problem-solving activities, developing both practical skills and appreciation for collaborations.

I wish all the best to all our three (3) St Anthony's Schools. I also want to thank Ms Rani and Mr Wemel from LTT Global for agreeing to work with the Alumni to provide us the STEM Career Digital platform.

**Professor Dr Selvaraj Oyyan Pillay**

President

Persatuan Alumni St Anthony's School Teluk Intan – Kuala Lumpur.
